

# Mobile Platform Scale

## Model **SRV710W** / **SRV740W**

These app-enabled mobile platform scales make gathering weight for lions, tigers, bears, and other large animals both easy and safe whether being weighed in their habitat or holding cage.

The scale's durable stainless frames are coated with an aggregate infused polyurea coating that provides a slip-free surface for animals, reducing the fear of slipping that animals often associate with a scale.

The scales incorporate hermetically sealed load cells and built-in displays allowing for complete wash down of the scales.

### **WIRELESS**

The scale's electronics are equipped with wireless communication, enabling the animal keeper to operate the scale at a safe distance using an android tablet or phone.

### **LARGE WEIGHING SURFACE**

The scale's large 36" x 54" (SRV710W) and 30" x 40" (SRV740W) anti-skid surfaces are ideal for gathering weight on large hoofstock or turtles.

### **CAPACITY**

2,000 Lbs. or 907 Kgs.

### **PORTABLE**

Two people can easily carry the scale to where the animals are being weighed. Simply place on a hard flat surface.

### **POWER**

Six "AA" batteries provide up to 800 weigh cycles.
